

AT THE QUEEN TONIGHT

## BREAKS AGAINST A. & M. FARMERS

Aggie Coach Says His Men Played  
Good Football—Players Confi-  
dent of Future.

The entire student body, 1,200 strong, was at the depot at College at 2 o'clock Sunday morning to welcome home the Farmer football squad. While depressed over the outcome of the game with Louisiana State University, the corps wanted to show the team that it was still loyal.

Captain Rollins said: "I don't approve of alibis, but the breaks certainly did go against us. In the first three quarters the ball was in their territory nearly all the time, but something would always go wrong. However, Louisiana had a powerful team and played good football."

The whole squad, far from being broken spirited, came back home determined to go through the rest of the season without being scored on. Coach Harlan said that he was satisfied with the eleven's work, for they had fought desperately throughout the game and that was all he could ask. There is no game scheduled for this week, the next one being with S. M. U. Monday, and a solid week of good, hard work is to be the program.

To open and close blinds without opening a window crank operating gearing has been invented.

There is probably nothing more unlike a battle than a picture of one.

When the star boarder marries his landlady he becomes a fixed star.

At the Queen Tonight.

### REAL ESTATE TRANSFERS.

Following deeds have been filed for record in the office of County Clerk W. S. Higgs:

Mrs. Lucy J. Thomas to John M. Lawrence, part of Colbert Baker One League Survey. Consideration \$3,750.

J. H. Atkins to E. H. McCulloch, 553 acres of the S. W. Robertson League. Consideration \$1,300.

J. M. Lawrence to John L. Cobb part Colbert Baker One League. Consideration \$3,750.

C. G. Parsons to Sanford and Annie Johnson, lot 5 block 2 City of Bryan, consideration \$600.

W. H. Buchanan to C. C. Cobb, tract of land in the Bowman Survey, consideration \$1,050.

John M. Lane to W. H. Buchanan, tract of land in the Boman Survey.

Consideration \$545.

Geo. W. Whitehurst et ux to J. C. Hall et ux tract of land in the John Austin League. Consideration \$10 and other valuables.

James W. James to Ben and Eleanor Harrington, lot 4 block 1, in James addition to City of Bryan. Consideration \$75.

C. C. Camp to Peter and John Palassota 54 acres of land in the H. and B. Whiteside survey. Consideration \$2,800.

Total consideration \$13,880.

Candle lamps bright enough to be used on bicycles and motorcycles have been invented in France.

A patent has been granted for a screw with a slot on one side to prevent it becoming loose in wood.

## The Soda Fountain An American Institution

Did you ever stop to realize that the soda fountain is as much an American institution as the sausage is a German institution? "On French Bread" is an institution in France and the Plum pudding an English institution? And the funny part of it all is that though one seldom sees a soda fountain in Europe (and then only for the sake of attracting American tourist trade) just as soon as a foreigner gets to this country he too seems to learn to love the soda fountain.

But, if you are old enough to look back a few years you will remember that only comparatively recently has the soda fountain been either so popular or so beautiful and hygienic.

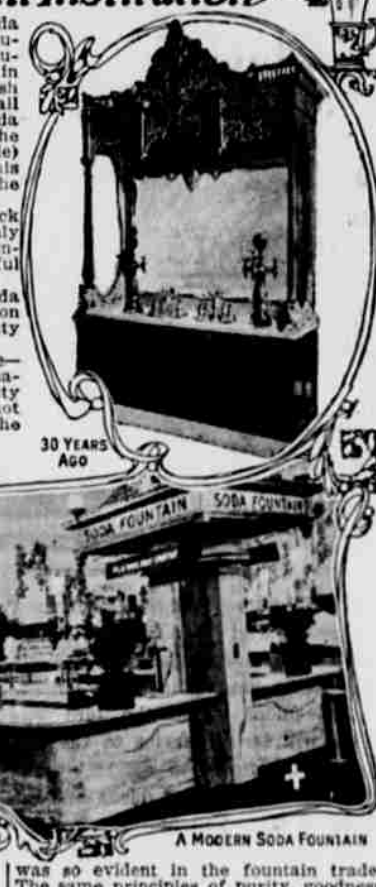

You may remember what these old soda fountains looked like—what poor provision they made to supply even their scanty trade.

What has wrought this great change—what has made the soda fountain a national institution—a comfort and necessity in the daily lives of men and women—not only during the hot summer time but the whole year round.

was so evident in the fountain trade. The same principles of purity, goodness and deliciousness made another astounding record of growth possible. Bottling plants have been established all over the country to take care of this branch. Just think of it—over 50,000,000 glasses and bottles of Coca-Cola are drunk every month. So—just as much as is the soda fountain a national institution so is Coca-Cola the National Beverage.

The answer lies in that delicious beverage Coca-Cola. Soon after its introduction at the fountain people began to ask more and more for this distinctive drink. Along with its demand came the demand for more places that would serve it. Soda fountains sprang up everywhere, improving in beauty, neatness and attractive service. It is a fact that the part the soda fountain and all its allied industries have come to play in the economic life of the nation today is due largely to the stimulus given to it by Coca-Cola.

In the same way has the call for bottled beverages grown. In 1899 Coca-Cola in bottles was first put on the market and the same quick recognition and appreciation was accorded to it in this form as

A MODERN SODA FOUNTAIN

## HIGH CLASS PROGRAM FOR COTTON PALACE

Sixteen Days of Varied Entertainment Offered  
by Big Waco Exposition.

NOVEMBER 4 TO 19 THE DATES

Free Concerts by Famous Conway  
Band Every Afternoon and Evening  
—Thrilling Free Acts on War  
Path.

Waco, Texas.—It is conceded by people all over the South that the Cotton Palace program this year is by far the best that has ever been arranged by any exposition. Unlike the average exposition, every day will be a feature day. There will be something big going on every minute of every day.

Free concerts will be given by Conway's band in the coliseum every afternoon and night during the entire sixteen days of the exposition.

Spectacular free acts will be given on the War Path every afternoon at 4 o'clock and at 9:30 each night.

The Queen's ball and all other attractions given in the coliseum are absolutely free. This is the only exposition in the world where extra admissions are not charged for attractions of that character.

The official program in condensed form of the entire sixteen days follows:

Saturday, November 4—All buildings open 9 a. m.; cotton parade 10 a. m.; afternoon football, between Baylor and Southwestern universities; children's entertainment in the coliseum from 2:30 to 4:30, 800 children participating; 7 p. m., street parade; 8 p. m., formal opening of exposition by Governor Ferguson and other officials, and presentation of cotton premiums; 10 p. m., preparedness ball.

Sunday, November 5—Free concerts by Conway's band and free acts on War Path. Popular excursions will be run on all railroads. Dallas and Austin day.

Monday, November 6—Baylor University day. Baby show commences. Football between Meridian Normal of Meridian and Alexander Collegiate Institute of Jacksonville, 2 to 5 p. m.; night, concert and dancing.

Tuesday, November 7—Waco day. Union Labor day. Business houses close at 1 o'clock. Nine-thirty a. m., examination of babies; 10:30 a. m., union labor parade, all departments of city of Waco, merchants' floats; 2:30 p. m., athletics, speeches, etc., under auspices union labor, athletic field; 9:30 p. m., grand labor ball.

Wednesday, November 8—Texas Central and Cotton Belt West. Comanche, Hamilton, Ireland, Gatesville, Oglesby, McGregor, Morgan, Whitney, Iredell, Walnut Springs, Hico, Dublin, Gorman, Sipe Springs, DeLeon, Rising Star, Cross Plains and Cisco day; also all towns on the Santa Fe railroad, Y. M. C. A. day. Nine-thirty a. m., examination of babies; 10 a. m. until noon, parades by visiting delegations; 2 to 5 p. m., big entertainment, race track and athletic field; 4 to 6 p. m., all Texas Y. M. C. A. volleyball tournament; 9:30 p. m., finals volleyball tournament.

Thursday, November 9—Queen's ball, M. K. & T. North, Interurban, Elm Mott, Abbott, Hillsboro, Milford, Itasca, Grandview, Waxahachie, Alvarado, Italy, Temple, Bell County, Lorena, Bruceville, Eddy, Troy, Little River, Holland, Bartlett, Granger, Taylor, LaGrange, Georgetown, Bastrop, Smithville, and all M. K. & T. South day. Nine-thirty a. m., examination of babies; 10 a. m., parades of visiting delegations from towns and cities; 2 to 5 p. m., entertainment, race track and athletic field; 9:30 p. m., coronation ceremonies and Queen's ball.

Friday, November 10—Press day. Mart, Marlin, Calvert, Hearne, Bryan, Navasota, Bremond, Brenham, Reisel, and all towns on H. & T. C. and I. & G. N. day. Auction sale of registered Jersey cattle, by Texas Jersey Cattle club. Nine-thirty a. m., examination of babies; 10 a. m., parades by visiting delegations; 2 to 5 p. m., football between Waco and Austin high schools, athletic field; concert and dancing at night.

Saturday, November 11—Traveling Men's day, Public School day, Waco, McLennan County, A. & M. College, all Texas Boy Scouts' day. Nine-thirty a. m., examination of babies; 10 a. m., school parade; 11 a. m., traveling men's parade; 1 p. m., parade, students and cadet corps, A. & M. college; 2 to 5 p. m., football, Baylor and A. & M.; 2:30 p. m., livestock parade, in front of grandstand; 9:30 p. m., traveling men's ball.

Sunday, November 12—Fort Worth day. Popular excursions on all roads. Concerts by Conway's band and free acts on War Path.

Monday, November 13—Young Men's Business League day. Best horse racing in South commences on this day. Special attractions in all exhibit buildings. One-thirty to 5 p. m., horse races; 3 to 4:30 p. m., announcement of prize-winning babies in

## TURN UNDER COTTON STALKS NOW.

(By F. B. Paddock, State Entomologist, Texas Experiment Station, A. and M. College, College Station, Texas.)

From a survey of the reports and a review of the field observations, it is very evident that the cotton boll weevil is present to a greater extent than the growers realize. The weevil has been gradually increasing without causing sufficient injury to attract attention. In some sections where a top crop is expected, examination shows that every boll now present on the plants has been injured by the boll weevil. At this time of the year, perhaps more than at any other time, the immense number of weevils present can be appreciated.

The growers should plan now their campaign against the boll weevil. By far the greatest factor in the control of this pest is the destruction of the cotton plants in the fall as soon as the cotton can be picked. Such a measure prevents a great many weevils from maturing and forces mature weevils into early hibernation. It has been demonstrated that only mature weevils can successfully hibernate over the winter. It is also positively known that cotton is the only food of the boll weevil. It should be evident, therefore, that the early destruction of the stalks will very materially reduce the number of weevils that can successfully survive the winter.

The following data is the result of extensive experiments conducted in Louisiana:

When the cotton plants were destroyed between October 1st and 15th, only 3 per cent of the weevils survived the winter; when the plants were destroyed between October 15th and 31st, 15 per cent of the weevils survived; between November 1st and 25th, 22 per cent of the weevils lived through the winter; between November 30th and December 7th, 28 per cent of the weevils lived through the winter; when the cotton plants were destroyed after December 7th, 43 per cent of the weevils successfully passed through hibernation.

The results of these experiments should be very simple. They indicate that the postponing of the destruction of the cotton plants in the fall is a very dangerous practice. It means that the grower who leaves the cotton plants in the field until very late in the season simply invites the boll weevil to live over the winter and attack his crop the next year. If the growers would only devote a small portion of as much enthusiasm and energy to the early harvesting and the early destruction of the cotton plants as they do now to proper cultivation and maturing of the crop, they would not only be able to make much more cotton, but make it much cheaper.

The manner in which the stalks can best be destroyed depends somewhat upon the locality and the principles of farm management that are followed. It is best to carefully and thoroughly plow under the cotton stalks. Unless this is properly done there will be sufficient food for some of the weevils to survive on.

Another method is to cut the stalks, rake them into rows and burn them.

Experiments which have been conducted in Texas show that if the stalks are destroyed in the fall an increased yield of more than a quarter of a bale of cotton per acre may be obtained the following year.

Volunteer cotton should be destroyed at all times. The grower should not wait for experience to drive this lesson home. If you intend to grow cotton next year, make all preparations now for a successful crop. Destroy all plants at the earliest possible time.

### COTTON RECEIPTS.

Following are the cotton receipts in Bryan up to noon today:

Lawrence warehouse . . . . . 5,971  
Brick warehouse, . . . . . 4,891  
Union warehouse, . . . . . 2,991

Total . . . . . 14,233

Street cotton sold today at from 16 1/2 to 17 1/2 cents; cotton seed sold for \$43.00.

On the same date last year cotton sold on the streets of Bryan for 11 1/2 cents, and cotton seed for \$30.00. There had been 11,126 bales of cotton received in Bryan on the same date last year.
